

Digi-nip®

Roller Nip Measuring & Setting Gauge

Uses Sensor Strips Technology to Provide Dual Measurements Instantly on the Digital Readout Display

It is not necessary to ink-up water rollers to take readings.

Do Real Time Alignment and Adjustments while Sensors are Reading Rollers

This Feature Saves Lot's of Time

Suitable for All Rollers requiring a NIP Setting and Adjustment

Dual Sensors **ENSURE ROLLS ARE PARALLEL**

DIGI-Nip shortens "Striping" time to just minutes. DIGI-Nip Can also extend the life of rollers and improve print quality.

Saves Time, Improves Quality, Saves Money
